

Affaldssortering og storskrald

Containerne til dagrenovation bliver tømt to gange om ugen; **mandag** og **torsdag**.

De øvrige containere bliver tømt følgende dage:

PAPIR: Tirsdag – Ulige uger.

PLAST: Onsdag – Lige uger.

For alle containerne gælder det, at låget skal kunne lukkes helt; ellers vil de ikke blive tømt!

Storskrald, samt affald der ikke hører til i dagrenovation eller i de nævnte containere (f.eks. elektronik), skal man selv sørge for at bortskaffe.

Dette kan gøres på nærmeste genbrugsplads:

Åbent alle dage 8-17.
